A woman dances with her son
because of brain surgery that
reduced her epileptic seizures
performed by a neurosurgeon who was
able to pinpoint the foci of the seizure
due to breakthroughs in the
mapping of the human brain
advanced by physicians, mathematicians
and computer engineers around the world
inspired by new discoveries
in imaging technologies
reported in medical and
scientific publications.

ELSEVIER

Building Insights. Breaking Boundaries.™

The creation of knowledge depends on a continuous line of connections between people and ideas. That's why, for over a century, Elsevier has linked researchers and practitioners worldwide to the best and newest thinking in their fields. As a professional publisher of scientific and medical information, Elsevier facilitates the review, selection, dissemination and preservation of information, publishing thousands of journals and books and providing access to a world of information via the desktop or PDA. After all, we believe that getting the right information into the right hands can make a difference. **elsevier.com**

"When I've got something to write, Scopus is the first place I go to get relevant information fast."

- Identify citations...
- Know who to cite...
- Confirm the idea is original...

- all necessities when authoring a cutting-edge paper. With Scopus, I can pinpoint what I'm looking for without having to waste time on the search. It's all there.

If you could put your finger on what you need, fast, you would, wouldn't you?

I did!

Proven Outcomes in Ultrasound.

The new **SONOLINE G40™ ultrasound system** goes beyond best-in-class to an entirely new level of performance unique in the world of ultra-portable ultrasound. The G40 system provides improved image uniformity even at greater scanning depths, thanks to Hanafy Lens transducer technology. It also offers expanded clinical capabilities enabled by the extended field of view of Virtual Format Imaging. So now you can save time. Reduce costs. And experience outstanding performance through Siemens technology migration. Contact your Siemens ultrasound representative today for more information. Because with the new G40 system, the answers are always within reach.
